STATE-OF-THE-ART

Mobile Automotive Repair & Service Marketplace

PROBLEM

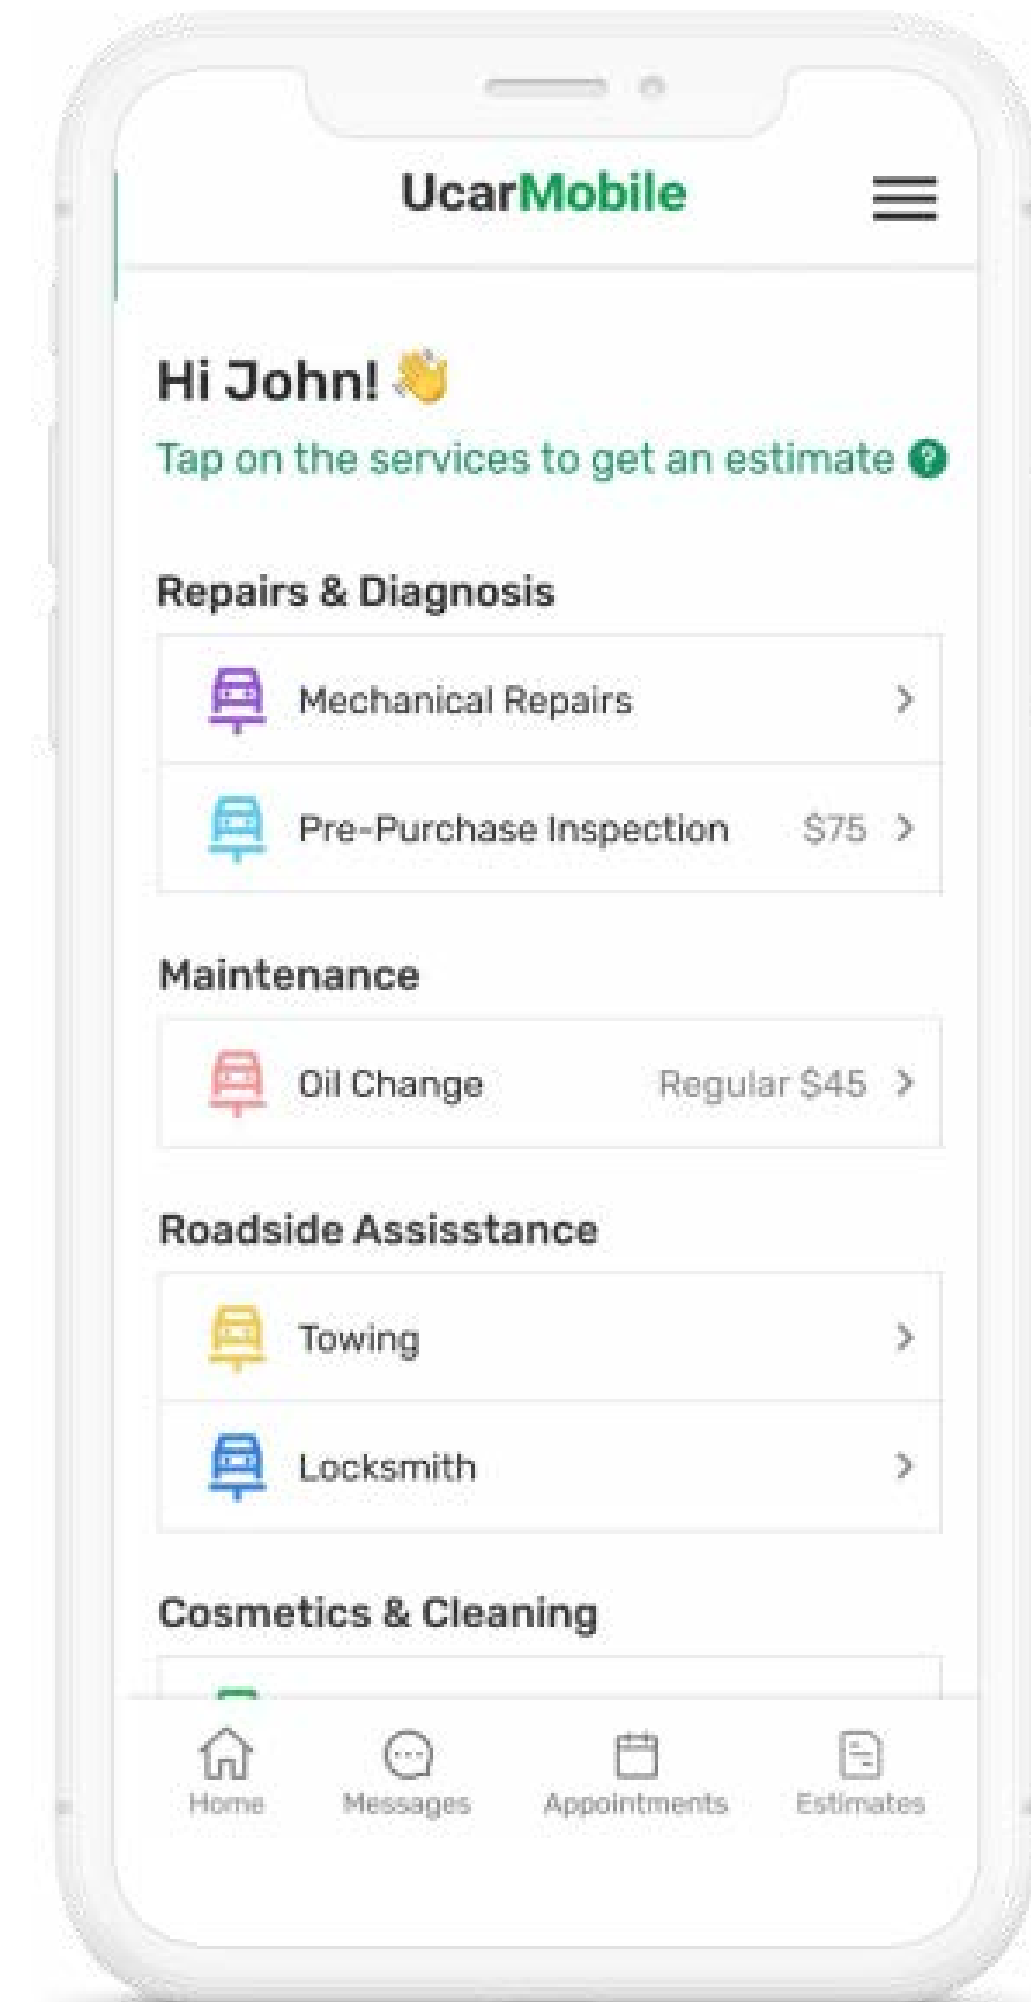

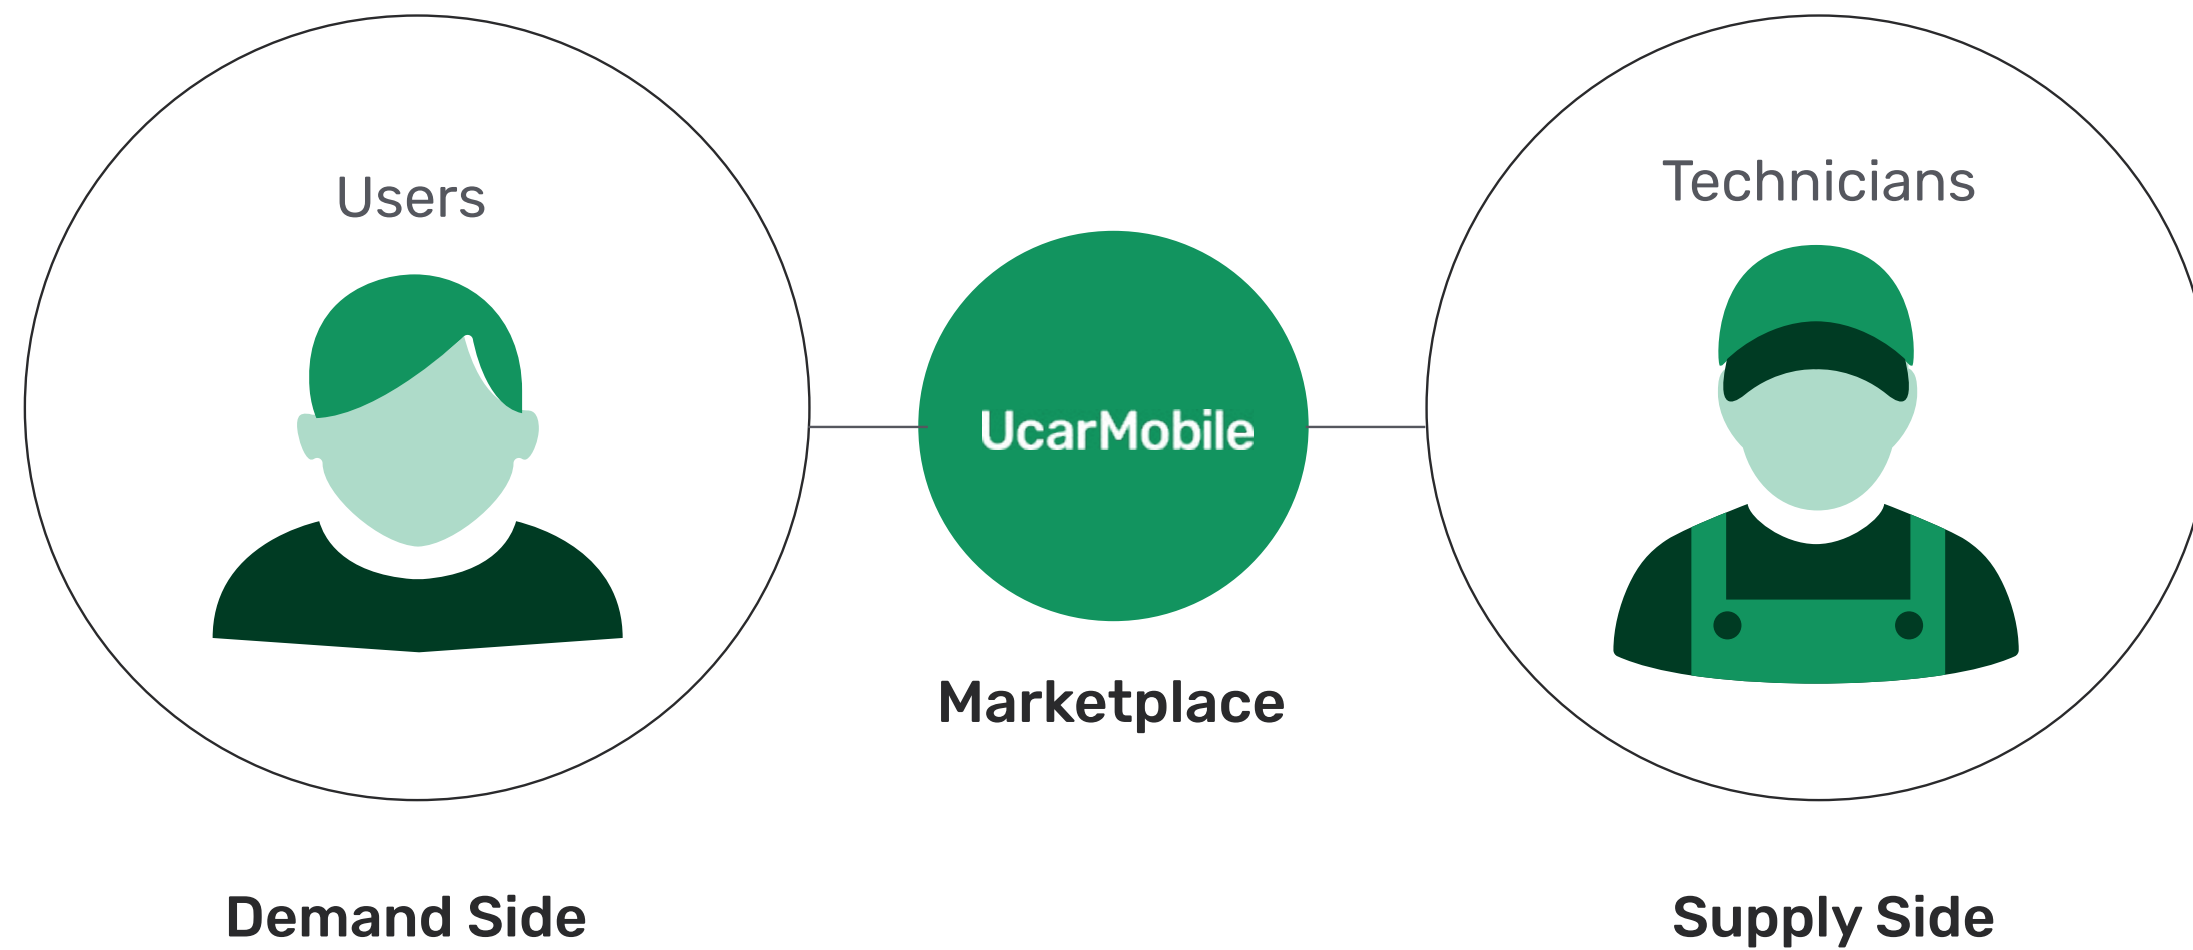

Automotive Mobile Repair & Maintenance industry is a mess

- Lack of trust & transparency
- Technician shortages
- Dealers and repair shops are expensive
- Difficulty keeping up with technology
- Limited customer service
- Inconvenience of dropping the vehicle at the repair shop + longer wait times

SOLUTION

An online marketplace that connects users with vetted, expert automotive technicians

All in one beautiful app

Delivering significant value to both users and the technicians

VEHICLE OWNERS

- Quick scheduling
- Transparent pricing
- Don't have to drop off or pickup vehicle
- Contact-less Payment and interactions
- 24 month or 24,000 mile warranty
- Lower cost vs repair shop
- Live Customer Support
- Pool of Certified technicians for everything automotive-related

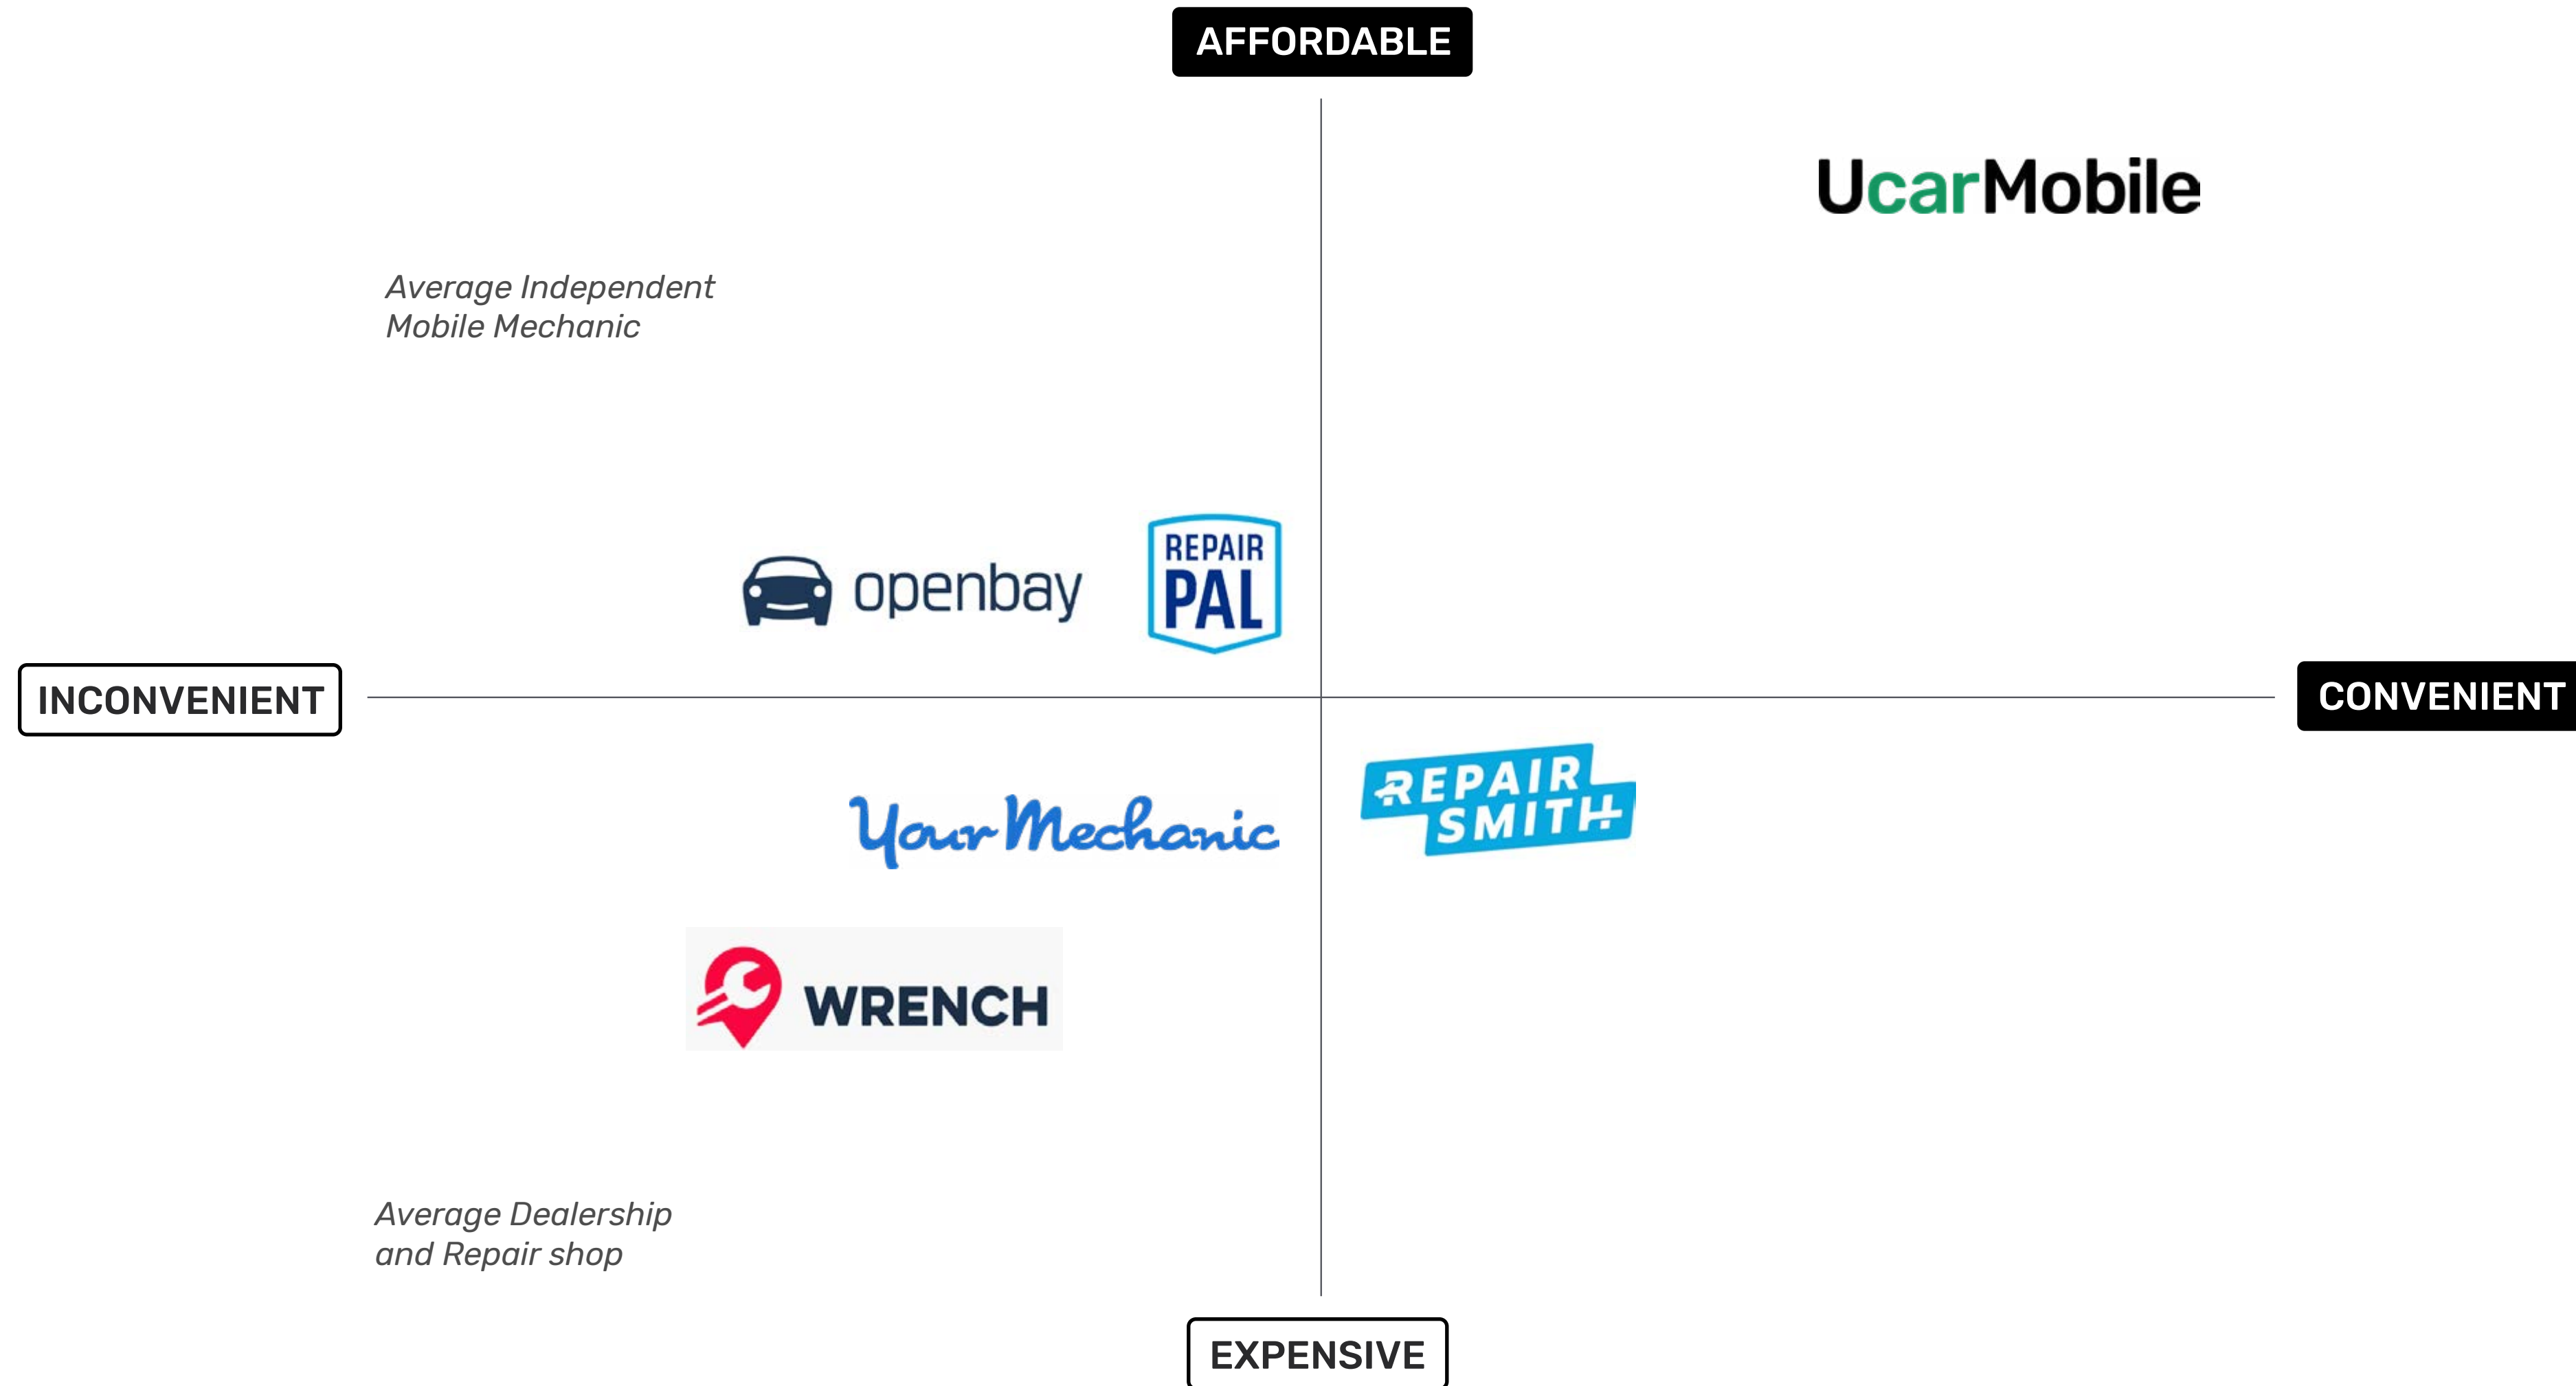

and more...

TECHNICIANS

- Higher income
- Unlimited growth potential
- Job scheduling/routing via App
- Technical support (manuals, technician hotline, and diagnostic tools)
- Wholesale parts
- Client payments deposited directly to bank account
- P & L reports

and more...

COMPETITION

Automotive Repair. Re-imagined

- Building a marketplace around the car owners and automotive technicians
- Disrupting the market by putting the users first
- Putting more money into the technicians pocket
- Nurturing the next generation of automotive technicians
- Using technology to streamline processes and reduce friction—resulting in lower cost repairs and higher customer satisfaction
- EV Market and mobile charging services

Mobile Repair Services in the US is \$28 BN per annum
